Note-taking methods and information retention

Your Amendment has been reviewed and approved using expedited review on the date of 4/11/2016. It was the determination of the UMCIRB Chairperson (or designee) that this revision does not impact the overall risk/benefit ratio of the study and is appropriate for the population and procedures proposed.

Please note that any further changes to this approved research may not be initiated without UMCIRB review except when necessary to eliminate an apparent immediate hazard to the participant. All unanticipated problems involving risks to participants and others must be promptly reported to the UMCIRB. A continuing or final review must be submitted to the UMCIRB prior to the date of study expiration. The investigator must adhere to all reporting requirements for this study.

Approved consent documents with the IRB approval date stamped on the document should be used to consent participants (consent documents with the IRB approval date stamp are found under the Documents tab in the study workspace).

The approval includes the following items:

Document	Description
Learning Styles Questionnaire.docx(0.02)	Surveys and Questionnaires
Protocol for Note-Taking study.docx(0.04)	Study Protocol or Grant Application

The Chairperson (or designee) does not have a potential for conflict of interest on this study.
