Today's Discovery Landscape: An overview

1

Discovery Options: Major Classes

- ◉ OPAC (& databases)
- ◉ Next-Gen Catalogs
- ◉ Federated Search
- ◉ Web-Scale Discovery

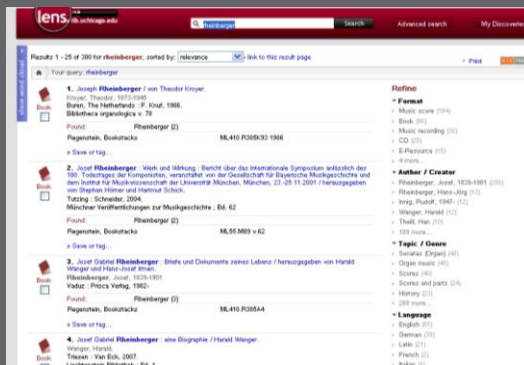

OPAC

- ◉ "Local" content
 - But libraries have been adding records for purchased and subscription e-content for some time.
- ◉ Exception: article content usually found in databases (IIMP, Music Index, RILM, etc.)

"Summon'-ing Music: A Discovery Tool Journey"

Next-Gen Catalogs

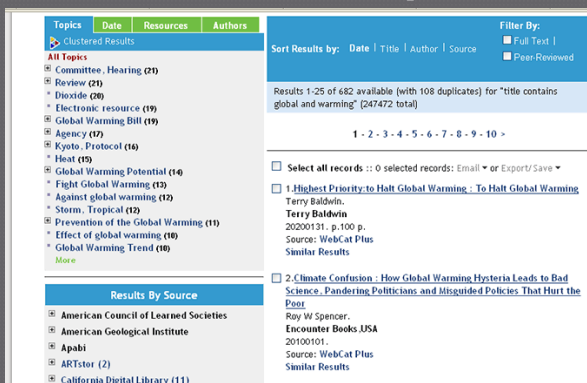

- Content similar to local OPAC. May be easier to incorporate digital repositories and e-content.
- Examples:
 - AquaBrowser
 - Primo
 - Blacklight
 - Endeca
 - Encore
 - VUFind

AquaBrowser (University of Chicago)

Federated Search

- Broadcasts your search to a variety of databases, can include the library catalog
- Examples:
 - WebFeat
 - 360 Search
 - dbWiz

360 Search (Serials Solutions)

"Summon'-ing Music: A Discovery Tool Journey"

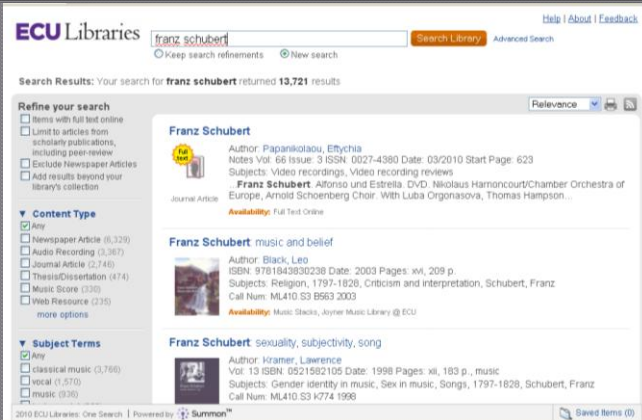

Web-Scale Discovery

- ◉ Interface similar to next-gen catalogs
- ◉ Catalog content + articles
- ◉ Metadata ingested into the discovery tool
 - don't broadcast searches
 - don't necessarily extract metadata from databases.
 - most of Summon's metadata comes from publishers.
- ◉ Examples:
 - Serials Solutions Summon
 - EBSCO Discovery Service
 - Primo Central (Ex Libris)
 - Encore Synergy (III)
 - WorldCat Local

Summon

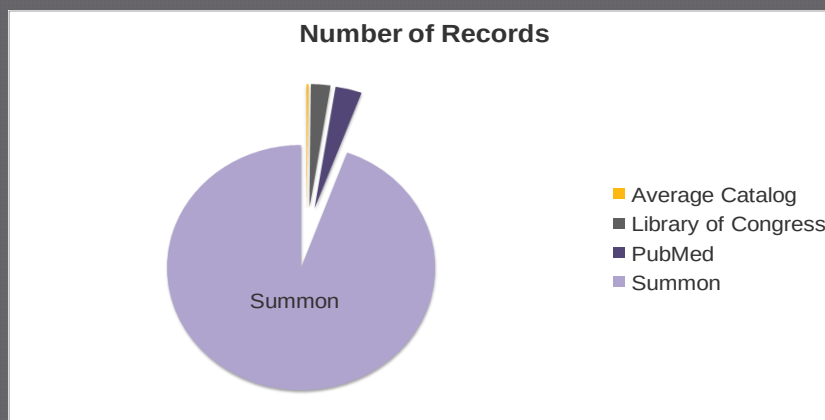

The screenshot shows the ECU Libraries Summon interface. At the top, the search bar contains 'franz schubert' and the results count is 13,721. On the left, there are filters for 'Refine your search' (including 'Items with full text online', 'Limit to articles from scholarly publications', etc.), 'Content Type' (with 'Any' selected), and 'Subject Terms' (with 'Any' selected). The main results area displays three items: 'Franz Schubert' by Papanikolaou, Eftychia; 'Franz Schubert: music and belief' by Black, Leo; and 'Franz Schubert: sexuality, subjectivity, song' by Kramer, Lawrence. Each result includes a thumbnail, author, title, and availability information.

Summon

- Hosted, web-scale discovery service from Serials Solutions
- Summon's central "cloud" index:
 - 500 million+ items
 - From 94,000+ journal and periodical titles
 - Content comes from 6,800+ publishers
- Your local content:
 - Library catalog
 - Other local repositories (digital collections, etc.)

Summon

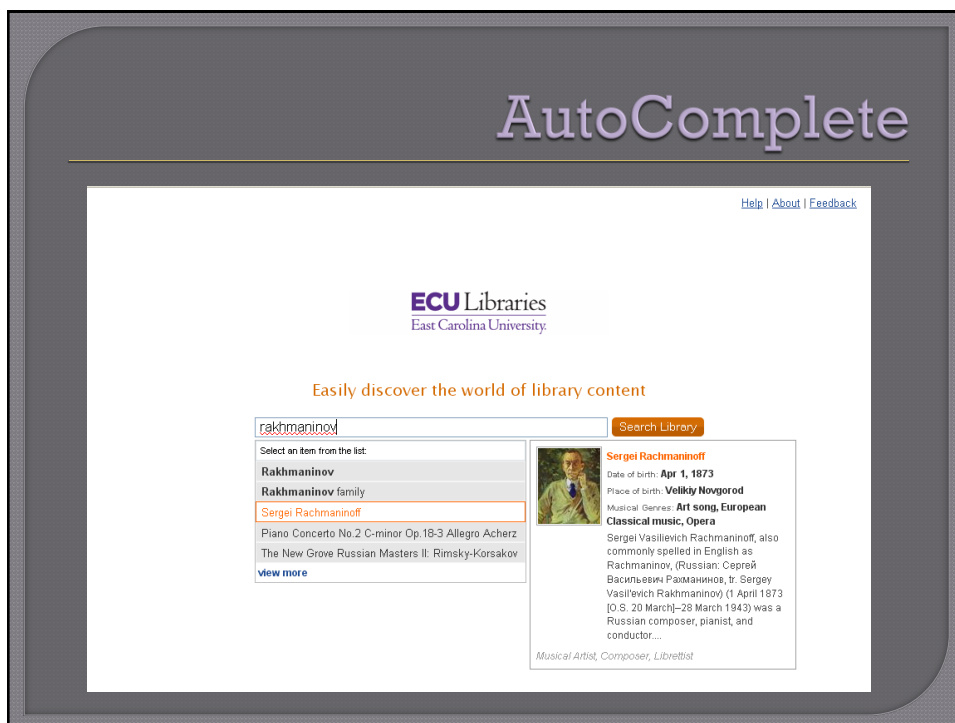

- ◉ Relatively new product – constantly changing, (usually) for the better
- ◉ Serials Solutions seems reluctant to take the time to write much documentation - perhaps they are waiting for it to stabilize
- ◉ Many libraries are implementing
- ◉ Disclaimer: This presentation is accurate as of now ...

Searching

- ◉ Keyword search only

Beethoven: Symphonies

Author: Trotter

Abstract

Since this performance of the Ninth strikes me as the most impressive of the three, I use it to clarify what I mean. On one end of the interpretive spectrum, [Herbert Blomstedt] seems uninterested in portraying this complex, manifested score as the embodiment of some basic struggle between Light and Dark. Unlike Furtwangler, he doesn't seek to offer a musical exploration of weighty, eschatological issues.
