

# The NIH Mandate One Year On: How Are Libraries Responding?

Joseph Thomas  
East Carolina University

A decorative graphic consisting of a solid teal horizontal bar at the top, followed by a white horizontal bar, and then three thin, parallel white horizontal lines extending to the right.

# National Institutes of Health Public Access Policy:

- See: <http://publicaccess.nih.gov/>
- Signed into law January 4, 2008; became permanent March 19, 2009
- Basic provisions: final peer-reviewed articles submitted to PubMed Central upon acceptance; freely available no later than 12 months after publication

U.S. Department of Health & Human Services

National Institutes of Health Public Access

*The Public Access Policy ensures that the public has access to the published results of NIH funded research to help advance science and improve human health.*

# Collecting Responses:

- The Survey: 25 questions, invitations via email to several librarian lists

- Library Websites: reviewed Web sites of 100 American ARL libraries and 52 academic libraries in NC

- Contacts: called/emailed librarians from several schools to discuss activities listed on library Web sites

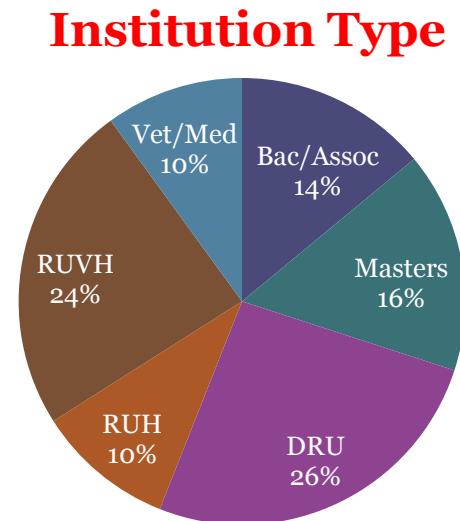

# The Survey:

- Demographics
- Methods of engaging campus on scholarly communication issues, which ones, and how effective librarians believe these have been
- Methods of engaging campus specifically on the NIH Public Access Policy, which issues, and how effective these have been
- Presence and growth of Institutional Repository, and whether the growth can be attributed to the NIH Public Access Policy

# Snapshot 1:

- 54 respondents with usable data
- Significant numbers from research schools
- 1/3 Reference/liaison, 1/3 administration
  - Also CDV and Scholarly Comm librarians
- Serving:
  - 39 are central library
  - 10 vet/med libraries

# Snapshot 2:

## Total Materials Budget

## Total Enrollment

# Scholarly Communications: How are libraries engaging their schools?

- Outreach to individual faculty members: 40
- Web page: 36
- Outreach to groups/admin: 32
- News articles: 27
- Jointly-sponsored campus-wide events: 23
- Posted promotional materials: 23
- Committee with librarians and faculty: 18
- Library-sponsored campus-wide event: 14

# Scholarly Communication: What content are libraries sharing?

## Content

- Copyright management
- OA to view research
- Complying with NIH Mandate
- Serials inflation
- OA publishing opportunities
- Institutional repository
- Least addressed: legislative advocacy

## By Method

- Web site (7 of 10 topics)
- Workshops for faculty
- Emails to faculty:
  - NIH (tie with Web)
  - Inflation of serials and e-resources
- Least used for all topics: Univ admin

# Scholarly Communications: How effective are these methods?

- Outreach to individual faculty: 52% effective or highly effective
- Outreach to groups/admin: 48% effective or highly effective
- Campus-wide events of both types seen as somewhat effective or effective
- Less effective: Web sites, committees with only librarians, and posted promotional materials

# NIH Public Access Policy: How are libraries engaging their schools?

- Web page: 26
- Outreach to individual faculty members: 22
- Outreach to groups/admin: 22
- News articles: 18
- Jointly-sponsored campus-wide events: 13
- Posted promotional materials: 11
- Library-sponsored campus-wide event: 9

# NIH Public Access Policy: What content are libraries sharing?

## Content

- **Complying with NIH Mandate**
- Copyright management
- OA to view research
- OA publishing opportunities
- Institutional repository
- Methods to deposit to any OA repository
- Alternative publishing models

## By Method

- Web site (all 10 topics)
- Workshops for faculty and library
- Promotional materials
- Email to faculty seems to have followed Web site topics
- Presentations to university admin: complying with NIH mandate, IR, copyright management

# NIH Public Access Policy: How effective are these methods?

- Outreach sessions to faculty: 42% effective or highly effective
- Outreach to groups/admin: 39% effective or highly effective
- Web page: 56% somewhat effective or effective
- News articles: 52% somewhat effective or effective

# Institutional Repositories and the NIH Mandate:

- 24 respondents have an IR or will launch within 1 year
- IR's: some growth in the last year
- Growth associated with NIH Mandate? No
- How to associate?
  - Comparing NIH submissions to IR submissions
  - Author indicates NIH status on submission
  - Library deposits on behalf of author

# The Websites:

- **ARL Libraries:**
  - 68 of 100 US libraries have Scholarly Communication Web pages
  - 72 have pages devoted to NIH Public Access Policy
- **North Carolina Libraries**
  - 8 of 52 academic libraries in NC have Scholarly Communication Web pages
  - 6 have NIH Public Access Policy pages

# Examples of Activities:

- Becker Library Flowchart: How to Demonstrate Compliance with the NIH Public Access Policy
- Duke Med Deposit Service
- Georgia Tech Brownbag (July 2008)
- University of California Irvine Presentation (May 2008)
- University of Wisconsin Madison Presentation (April 2009)

## Conclusions:

- Opportunities:
  - To work with Offices of Sponsored Research and university admin
  - To promote alternative publishing models
    - Especially open access
- Faculty don't need us for their submission
- Librarians remain reluctant to engage in certain kinds of advocacy
